HOME SECURITY

Security Jammers allow a window to be secured quickly and easily with great effect. These low cost items are a popular method to secure windows and doors within domestic and commercial properties.

INFORMATION

The Solon Security Jammer is a cost effective, high quality security product designed for use with PVCu doors and windows.

Using a simple pivot system the Security Jammer handle simply slots over the window keeping the frame and window together.

This not only provides simple, low cost security but also helps to you to feel safe within your home.
